About OXARC

OXARC, Inc. is a family owned business that has been providing welding and industrial supplies, as well as industrial, medical and specialty gases, since 1968. OXARC stocks a variety of retail and wholesale items and houses a complete service, warranty repair, and emergency repair facility for welding related products.

- Our stores, warehouses, and stock points, located throughout the Inland Northwestern United States, are linked with our own trucking and distribution system.
- OXARC is EDI Capable (Electronic Data Interchange) which gives us the ability to electronically handle the needs of our customers and participate in electronic government and military procurement programs.
- The OXARC Safety Products and Fire Equipment Divisions have complete lines of Industrial Safety Products including gas detection and monitoring equipment, protective clothing, respiratory protections, fall protection, first aid supplies and service, and fire extinguisher sales and service.
- Industrial, Medical, and Specialty Gases are packaged and distributed from six northwest facilities. We pride ourselves in providing the highest quality of workmanship and the highest purity of products in the industry. These state of the art facilities are continually updated to give OXARC the competitive and quality edge needed to lead the industry.

Professional Leadership, Quality Products and Services, and Commitment to our industry helps OXARC continue providing our customers with the products and solutions they need.

Certified Welding Inspection & Testing

- This division of OXARC is capable of performing visual and non-destructive testing of welds along with structural steel and high strength bolting inspections. Welder certification and training is offered at our WABO accredited testing facility.
- OXARC Welding Inspecting & Testing offers a full range of technical capabilities and supporting consultation for Non-Destructive Testing and related services.
- Our staff has long-standing relationships and direct lines of communication with the experts in welding, including:
 - Avesta Stainless
 - ESAB
 - Eutectic
 - Lincoln Electric
 - Select Arc
 - Stoodly
 - Thermal Arc
- **Welding Inspection & Testing**
 - OXARC Welding Inspecting & Testing also provides welding consulting along with procedure qualifications and develop written welding procedures specifically for your operation.
 - Certified Welding Inspectors (CWI/AWS)
 - ASNT Level II & III Technicians for:
 - Magnetic Particle (MT)
 - Liquid Penetrant (PT)
 - Ultrasonic (UT)
 - Visual (VT)
- **Qualification & Certification**
 - OXARC Welding Inspecting & Testing is accredited through the Washington Association of Building Officials (WABO) to perform welder certifications and training in the following processes:
 - SMAW (stick)
 - FCAW (flux core)
 - GMAW (mig)
 - GTAW (tig)
 - We perform testing on plate, pipe, light gauge metals, stainless steel, aluminum, rebar and special materials upon request.
- **Representative Projects**
 - OXARC Welding Inspecting & Testing division has performed welding inspections for the government and private sector with such projects as:
 - Hanford Restoration Project (Central Pre-Mix)
 - Chelan County Rocky Reach Juvenile Fish Bypass (Traylor Pacific/Dix Corp)
 - McNary Dam Fish Improvement (NW Steel Fab)
 - University of Washington Medical Center Surgery Pavilion (PSI Seattle)
 - Various Public Works Projects
- **Committed to the Welding Industry**
 - OXARC Welding Inspecting & Testing specializes in the areas of Welding inspection and non-destructive testing as well as welder certification and upgrading. With OXARC's commitment to the welding industry we have the ability to give the client a highly trained and professional work force to assist with their needs, such as:
 - Welder Certifications
 - Inspection Testing
 - Professional Services on Proper Welding Processes & Procedures

Fire Services & Prevention Equipment

- **HAND PORTABLE FIRE EXTINGUISHERS**
 - OXARC Fire Division is an Authorized Distributor of all major brands of Hand Portable Fire Extinguishing equipment. Our Fire Technicians work out of mobile units and are trained in sales, installation, inspection, maintenance, testing, and operation of portable fire extinguishing equipment.
 - Our Fire Technicians are thoroughly trained and comply with current NFPA #10 Fire Standards, state, city, and county codes. We provide weekly, monthly, quarterly, and annual services and are available 24/7 through our emergency 800#.
 - **NEW EXTINGUISHER TYPES**
 - Dry Chemical Stored Pressure
 - Dry Chemical Cartridge operated
 - Dry Powder
 - Antifreeze
 - Foam
 - Carbon Dioxide
 - Wet Chemical
 - Clean Agents
 - Wheeled Units
 - Brackets, Hangers, Signs
 - **Service**
 - Mobile On-site Service
 - Hydrotesting DOT Certified
 - Recharge/6 year Maintenance
 - Reconditioned
 - Rental Units
 - Classroom/Hands-On Extinguisher Training
 - Annually, Quarterly, Monthly Maintenance
 - Serving Washington, Oregon, and Idaho
 - Service Contracts
- **First Aid**
 - For over 35 years, OXARC has been at the forefront of the safety industry bringing you unmatched quality and service. We are proud to offer that same quality and service with our First Aid products. Our fully trained and professional staff will help assure your compliance with the ever changing and complicated government standards.
 - **New**
 - Complete Industrial First Aid Cabinets
 - First Aid Kits Trauma, CPR, Blood Pathogen, Burn, Eye, Sports, Earthquake
 - Pain Relievers, Cold Medication, Antacids, Heat Relief, Burn Relief and much more.
 - **Service**
 - On-site First Aid Kit Replenishment Service
 - Complete line of Kit Refill Items
 - On-site evaluation of your current FA Program
 - First Aid Product Training for your employees at a time that is convenient for you.
- **Systems**
 - OXARC Fire Division is an authorized distributor for all major brands of industrial and commercial suppression systems including, ANSUL, AMEREX, Pyro-Chem, Range Guard, and Badger. We design, install, and service systems to meet your needs, whether it is a paint spray booth, restaurant hood system or a vehicle system for equipment used in the forestry or mining industry. We have product brochures for your information.
 - **New**
 - Restaurant Hoods
 - Paint Spray Booths

- Vehicle Systems
- Backflows
- **Service**
 - Semi-Annual Maintenance
 - Recharging and Testing
 - Remodel and Repair
 - New Installation and Design
- **Alarms**
 - OXARC Fire Division is pleased to announce our new alarm, detection and engineered systems product line.
 - **New**
 - Halon 1301
 - Inergen
 - FM-200
 - Fire Alarm Systems
 - CO2
 - High Sensitivity Smoke Detection
 - Smoke Detector Sensitivity Testing
 - Room Integrity
 - **Service**
 - Inspection
 - Service
 - Maintenance
 - Installation
 - Design
- **Demonstration and Education OSHA Requirement #1910-157 (G1)**
 - Where the employer has provided portable fire extinguishers for employee use in the workplace, the employer shall also provide an educational program to familiarize employees with the general principals of the fire extinguisher and the hazards involved with incipient stage fire fighting.
 - The employer shall provide the education required in paragraph (G1) of this section upon initial employment and at least annually thereafter.
 - OXARC Fire Division is now offering a service to help our customers comply with OSHA and some insurance requirements. This service is for aiding your employees on the demonstration, which includes group participation, meeting forum, and actual hands-on use of a portable fire extinguisher on a live fire. OXARC also offers a Spanish version of the fire demo tape. OXARC personnel will conduct the group session and live fire demonstration.
 - **Service**
 - Knowledgeable identification and use of fire extinguishers
 - List of employees in attendance
 - Certificate of Attendance for each employee
 - An outline of information covered in group forum
 - Content information list from the fire tape
 - Fire Demonstration Prop Capability List
 - Possible reduction in business and home insurance costs

Gases, Industrial & Medical

- Featuring the OXARC HIGH CAPACITY 4500 psi Compressed Gas Cylinder, with HIGH CAPACITY filling facilities for Industrial Gases & Medical Gases.
- Complete Cylinder Requalification and Testing
- RENT - LEASE - OR - PURCHASE your cylinders.
- **INDUSTRIAL and MEDICAL CYLINDER and BULK GASES**
 - Acetylene
 - Argon
 - Carbon Dioxide
 - Chem-O-Lene
 - Helium Hydrogen
 - Nitrogen
 - Nitrous Oxide
 - Oxygen
 - Propane
 - Anhydrous Ammonia
 - Banana Gas
 - Chlorine
 - Breathing Grade Air
 - Pure Gases
 - Industrial or Medical Blends
 - Refrigerant Gases
- **Services**
 - Bulk Tank
 - Cylinder Requalification
 - Hydrostatic Testing
 - Revalving
- **High Capacity 4500 PSI Cylinder**
 - Saving you money... and giving you more!
 - The OXARC HIGH CAPACITY 4500 psi cylinder gives you up to twice as much gas in a single cylinder!
 - Its larger capacity translates into savings for you - savings in time, in product, in space, and in money!
 - This cylinder has double the capacity of most conventional cylinders.
 - It will hold twice the gas volume of the regular "K" style of cylinder and 50% more than the "T" style of cylinder.
- **Only 1/2 as Many**
 - Let's assume that you use 10,000 cu ft of oxygen each month. If your oxygen is now delivered in "K" size cylinders, that's 40 cylinders that you handle and store on site.
 - The equivalent in the OXARC HIGH CAPACITY 4500 psi cylinders would be 20!
 - The standard "K" cylinder holds 249 cu ft of oxygen at 70 degrees F.
 - The OXARC HIGH CAPACITY 4500 cylinder holds 504 cu ft of oxygen.
- **More than twice the capacity of "K"**
 - You handle half as many cylinders so you make only half as many connections and disconnections.
 - Since you could get the equivalent of two cylinders of product in only one cylinder, your labor cost associated with cylinder handling would be cut in half and employee productivity increased.
- **NEW DUAL-OUTLET VALVE**
 - 2 Outlets, 0-3,000 psi and 3,000-6,000 psi
 - Eliminates the need for expensive step-down regulators
 - The OXARC High Capacity 4500 psi cylinder has been fitted with a new DUAL-OUTLET valve, which makes this cylinder completely interchangeable with your existing cylinder gas supply system.
 - It has two ports - one for 900 psig, and the other for 4500 psig - giving you the convenience of working at either operating pressure.

Contact: Robert Jones, Federal Sales Division

 - SBA HUBZone Application 46184 Pending Approval
 - SBA Small Business Concern

- The high pressure outlet of the DUAL-OUTLET valve provides actual cylinder pressure much like a standard cylinder valve. A specially designed lower plug incorporates a spring loaded seat disk which tends to keep the valve closed as the valve hand wheel is rotated. This SLOW-OPENING feature prevents the rapid pressure rise associated with standard cylinder valves. With the slow pressure rise characteristic, lower temperature rise is also obtained.
- This feature prevents chamber ignition and provides enhanced oxygen service safety by reducing the potential of regulator burnout and regulator ruptures.
- The slow opening feature of this new valve also reduces the likelihood of personal injury and property damage.
- The low pressure outlet connection provides a lower pressure product for lower pressure customer regulators. The pressure reducing mechanism is factory set at 900 psi and is not adjustable by the user.

• **Industrial Chemicals Applications**

- Chemical distribution throughout the Inland Northwest. Supplying a full line of products for a variety of applications.
 - Blue Print Ammonia
 - Boil Out Chemicals
 - Boiler Water Treatment
 - Chemicals for Environmental Services
 - Cleaning Compounds
 - Concrete Cleaning
 - Compounding (1&1) Chemicals
 - Cooking Water Treatment
 - Dairy Treatment
 - Electronic Chemicals
 - Electro-Plating
 - Flat Panel Display Fab Chemistry
 - Food Grade Oils
 - Food Ingredients
 - Forest Products Chemicals
 - Gas Processing
 - I.C. Fab Chemicals
 - Industrial Grade Oils
 - In Process Cleaning
 - Mask Making Chemicals
 - Metal Finishing
 - Metal Working Compounds
 - Mining
 - Municipal Water Treatment
 - Oil Drilling
 - Oil Refining
 - Refrigeration/Ammonia Grade
 - Paints & Coatings
 - Photo Resist Support Chemicals
 - Plating Chemicals
 - Printed Circuit Board
 - Pulp & Paper Chemicals
 - Sanitation Chemicals
 - Semiconductor Chemicals
 - Semiconductor Gases
 - Swimming Pool Chemicals
 - Wafer Clean Chemicals
 - Wafer Blank Mfg.
 - Waster Recycle Transportation
 - Waste Water Treatment
 - Water Purification Chemicals
 - Wine Chemicals & Additives

Gases, Specialty

- **Ultra High Purity Gases**
 - Our Ultra High Purity Gases meet or exceed all industry standards.
 - Available in sizes from 40cf to 291cf, and in disposable cylinders.
 - Certificates of Analysis are available with each cylinder upon request.
- **Blended Gases**
 - Various mixtures are available upon request and are based on the specific applications intended.
 - All Blended Gases have the Lab Analysis attached to each cylinder.
- **Calibration & Lab Gases**
 - A complete line of Calibration & Laboratory Gases are available, including the following:
 - Research grade Purity gases, anaerobic mixtures, Laser Excimer gases, Chromatographic Carrier gas, Electron Capture mixtures, Nuclear Counter mixtures, along with many other gases.
- **Accessories & Equipment**
 - A full selection of regulators and flowmeters are available for use with all of these gases.
 - Cryogenic Containers - Liquid Nitrogen Dewars, Refrigerators & Freezers
 - Gas Manifolds
- **Disposable Cylinders**
 - Disposable Calibration Gas Cylinders & Accessories are sold in the following sizes:
 - 17 liter, 34 liter, 58 liter, 103 liter, & 600 liter
 - Reactive Gases: Hydrogen Sulfide, Sulfur Dioxide, Ammonia, Chlorine
 - Non-Reactive Gases: PPM & LEL Mixes in both Air or Nitrogen balances

Rental Equipment

- **Safety Equipment Rentals**
 - Air Monitors
 - Automated External Defibrillator Trainers
 - Confined Space Blowers
 - Drager Chip Measurement Systems
 - Self-Contained Breathing Apparatus
 - Supplied Air Systems
 - Tripods/3-Way Winches & Work Winches
- **Welding Equipment Rentals**
 - Air & Electric Power Tools
 - Air Compressors
 - Arc Gouging Torches
 - Cable Sets w/Quick Connects
 - Cylinder Gases, Carts, Hoses
 - Cylinder Storage Racks
 - Electrode Stabilizing Ovens
 - Engine Driven Portable Welders (Gasoline or Diesel)
 - Exothermic Cutting Systems
 - Gas Mixer Controls
 - High Pressure Regulators for Purging Applications
 - Magnetic Base Drills
 - Mig Welders (110-650 Amp)
 - Oxy/Acet/Alt Fuel Cutting Kits
 - Pipe Beveling Tools/Fixtures
 - Plasma Cutting Equipment (Sheet Metal to 1-1/2" Cut Ranges)

- Power Generators
- Source Capture Smoke Systems
- Stick Welders (100-500 Amp)
- Stud Welders (up to 1600 Amp)
- Tig Welders (100-350 Amp AC/DC)

Safety Equipment & Products, Industrial

- **Eye, Face, Head Protection**
 - Safety Glasses
 - Goggles
 - Face Shields
 - Hard Hats
 - Welding Helmets
 - Emergency Showers & Eyewash Stations
 - Lens Cleaners
- **Hearing Protection**
 - Earplugs
 - Disposable & Reusable
 - Banded
 - Earmuffs
 - Voice Amplifying Earmuffs
 - FM Radio Earmuffs
- **Respiratory Protection**
 - Air Purification
 - Equipment, Service & Training
 - Half & Full Face Respirators
 - Masks
 - Cartridges
 - Filters
 - Supplied Air Systems
 - Fit Test Kits
 - Self-Contained Breathing Apparatus
 - Air Filtration Panels
 - SCBA Hydrostatic Testing
 - Breathing-Air Quality Analysis
 - Compressors
 - Portable Air Carts
 - Confined Space Ventilation/Blowers
 - Oxygen
 - Breathing Air
- **Confined Space Entry Equipment**
 - Personal Air Monitors
 - Ventilation/Blowers
 - Confined Space Communication Systems
 - Intrinsically Safe Lighting
 - PPE
 - Fall Protection
 - Respiratory Protection
 - SCBAs
 - ESCBAs
 - Air Purifying Respirators

Spill Control

- OXARC provides value-added pollution controls with storm water, containment, and sorbent products with just-in-time delivery and quality support.
 - Adsorbent Pads & Rolls
 - Laminated "Flex"
 - Fine Fiber
 - Bonded
 - Meltdown
 - Static Resistant
 - Boom
 - Cigarette Receptacles
 - Construction Compliance
 - Drain Seals
 - Drum Funnels & Accessories
 - Drums & Containers
 - Facility Protection
